**CT Publishing : Board Book Play: Easy Techniques from A to Z** before purchasing it in order to gage whether or not it would be worth my time, and all praised Board Book Play: Easy Techniques from A to Z:

2 of 2 people found the following review helpful. Glad I did not pay full price By sweetyetevil When the cover said easy techniques I should have known. There were some cute ideas in here but nothing that I could not find online or create on my own. Some of the techniques would be beneficial to beginners but anyone who has crafted for a while may find this too much of a beginner book. Save your money for a more advanced book if you have experience. One more thing...the book was a huge advertisement for the company who makes blank book boards. That should have been saved for the resouce pages in the back so it was obvious who helped with funding this book.
