homemade products due to knowing what goes into them. She has tried some other lotions at home, but none that smell as good as the recipes included in this book. She is up to 5 now that she has tried, all for different purposes such as relaxation, smell, etc., all of which she love. Great investment if you want to know what is really in your lotion.0 of 0 people found the following review helpful. So, before I was trying kalamansi (lemon) to use in my skin before I take a bath. But some are not really effective and this one is a collection of every lotion that I should try. What more could I tell?
