This book is well put together, and I found it very helpful as I designed a comtemporary Craftsman-style hall table for a client who wanted a lighter and airier look than more traditional Stickley designs.0 of 0 people found the following review helpful. Decent drawings and easy to follow plansBy LarryDecent drawings and easy to follow plans. However, the dimensions are said to have

been extrapolated from known dimensions using catalogs and auction photo's rather than from measuring actual pieces of original furniture. I have been using this method for determining dimensions for years, so this was a disappointment for me, yet, here is still much good info in the book and I would still recommend it to amateur and professional furniture makers alike. 0 of 0 people found the following review helpful. Arts and Crafts Furniture By Fran Nice drawings and information.

Arts Crafts style with a surprising twist! Charles Limbert was one of the leading figures in the Arts Crafts furniture movement, and also one of the most unique. His beautiful pieces combined curves, splayed sides and negative space with the more common straight lines of Arts Crafts furniture, producing designs that were highly prized. Both the Old Faithful Inn in Yellowstone National Park and the Mission Inn in Riverside, California, feature his work. And today, his original pieces bring thousands of dollars at auction. Now, for the first time, author Michael Crow has carefully detailed 33 of Charles Limbert's finest designs so you can build this beautiful furniture yourself. Inside this book you'll find: 200 drawings with exploded views, elevations and details for projects to fit every room in your house. A bill of materials and explanatory note for each piece. Advice on wood selection, hardware sources and construction and finishing techniques. A historical overview of Limbert's life and work. If you're looking for something fresh in Arts Crafts design, you'll find it--and more--in the Limbert designs here.

About the Author Michael Crow is an amateur woodworker with a special interest in the inspired minimalism of Shaker and Arts and Crafts furniture.
