Valerie Janitch : Candle Making and Decorations before purchasing it in order to gage whether or not it would be worth my time, and all praised Candle Making and Decorations:

The first part of this book tells you how to make and decorate candles for all sorts of special occasions in the simplest possible way, using for molds things that can be found already in the average home. The step-by-step instructions and clear diagrams make the whole process easy for anyone to follow. Suggestions for the use of candles as part of your permanent decorative scheme are also given. The rest of the book covers the making of other kinds of decorations for your house, with a special emphasis on festivals and celebrations throughout the year, such as birthdays, christenings, weddings, Valentine's Day, Easter, Halloween and Christmas. All are easy to make and use simple materials. Very little skill is needed in making them and in producing a really professional touch.
