**Janet C. Bernard : Candle Making: For Beginners In The Craft Of Candles** before purchasing it in order to gage whether or not it would be worth my time, and all praised Candle Making: For Beginners In The Craft Of Candles:

0 of 0 people found the following review helpful. What did I just read?By Ryan WolfYou could tell by the cover this was going to be a very lousy book in the first place. However, I was curious of what was inside, so I got the sample. Worst mistake EVER. Just from what little part that sample contained I found grammatical errors, spelling errors, punctuation errors- all kinds of things! I have no interest in buying the full version of this book and I HIGHLY

recommend you don't either.

Candle Making is loved by many people around the world, either for serious business and profit, or for fun and relaxation. Learn the basic tools and skills you need to start this wonderful craft, and discover hours of enjoyment from making your own candles.
