A candle is a solid wax block, with an embedded wick, which is ignited to provide light and sometimes even heat. Candles can be made from different types of wax, like bees wax, soy bean wax etc. and can be produced in different colors and different scents. Candles are quite popular during holidays to highlight that special holiday moments and romantic moments are also unthinkable without them. You can find candles anywhere from special stores to plain markets, but if you really want amazing candle that will satisfy all senses, than you should create your own. This guide will teach you how to make simple candles, but also customized ones and even candles from candle leftovers that are quite practical and economical.
