2 of 3 people found the following review helpful. Candle making bookBy S RThis book is a guide for people with intermediate to advanced candle making and candle display skills.It has plenty of advice on how to display candles and plenty of illustrations.It was my first time making candles and I used this book more as an inspiration for candle display.Also a word of advice for all beginners.Do not waste money buying the recommended tools separately.Goto your neighbourhood art and supply store and buy a candle making kit as it is cheaper and comes with most supplies.

A beautiful gift book; a style and decorating book; and a wonderful practical project book.

"with over 40 easy-to-follow projects, this inspirational book would make a lovely treat or gift".Ideal Home, January 1996
