Culberson Book is very detailed, would have liked more actual pictures, but lots of information, a little confusing, needs to be a little easier to understand. all in all if you are a beginner I would not recommend this as your first book. 0 of 1 people found the following review helpful. Disappointment By Diana Marshall This is not the book I was looking for. My one star rating reflects my

disappointment. The book itself would be great for someone looking to craft their own cards. I need inspiration for designing cards.0 of 1 people found the following review helpful. Satisfied customerBy J TaborBook arrived on time and as advertised. I am very pleased and thank you very much.
