Sizzix : Cards That Wow with Sizzix: Techniques and Ideas for Using Die-Cutting and Embossing Machines - Creative Ways to Cut, Fold, and Embellish Your Handmade Greeting Cards (A Cut Above) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Cards That Wow with Sizzix: Techniques and Ideas for Using Die-Cutting and Embossing Machines - Creative Ways to Cut, Fold, and Embellish Your Handmade Greeting Cards (A Cut Above):

47 of 48 people found the following review helpful. A heads up By J. Eyre One thing you have to be aware of when you order this book is: it is a book of ideas and not one of instructions. The ideas and presentation of those ideas is really well done. You also need to be aware that she uses a lot of different card stocks, patterns, and supplies. So, if you have them on hand it would be great. If not you'll have to read the book and then order them either online or from the store. 8 of 8 people found the following review helpful. This is a good book for inspiration By Donna Dove This is a good book for inspiration. However, most of the products used in the card samples are Sizzix products so don't expect to replicate in any manner without their specific products. But it's always good to have something to look at for

inspiration. The items in the book can be ordered from Sizzix. 15 of 16 people found the following review helpful. Love the book! By Rosebud If you look in the book the statement is very clear what it's about, (rather than taking you through each project step- by- step, Cards That Wow with Sizzix is an idea book that will spark your creative fire, etc...etc) furthermore if you look at the book section it shows what you can expect. It does give you a basic overview of written instructions...that being said, look inside (which they give) and decide for yourself if the book would be useful.

Explore the thousands of fun and useful applications of Sizzix die cutting machines and create one-of-a-kind cards! If you loved *Upcycle With Sizzix*, this is the perfect book to continue your journey with these amazing machines. Sizzix expert and author Stephanie Barnard covers card-making basics, her favorite products, and shares projects you can create yourself. Stephanie's tips, tricks, and techniques make it easy to try new projects and make your cards interactive and exciting. Clear photographs make every detailed step simple to follow. The card projects you can make with Sizzix are practically limitless. Create your own handcrafted greeting cards, decorative envelopes, invitations for weddings and other special events, and add a flourish to thank you cards. With Stephanie's help, let your imagination run wild!

"This how-to guide is packed with tricks and techniques perfect for new projects and designs, and covers new, innovative ways of cutting, folding and making handmade greeting cards." - California Bookwatch
