In this new book Tom Wolfe leads the carver through the process of creating a beautiful Santa ornament for the tree or to be displayed on a stand. A basic understanding of carving techniques is all that is needed to follow this fully-illustrated step-by-step instructions. As always Tom is happy to offer the tips and wisdom of many years of professional carving. The project covered in the book is a traditional Santa's head along with a sculpted stand from which to hang it. In the back are many other examples, from the saintly Nicholas to a fanciful "Banana Santa." All in all this is book will bring delight to carvers and those who see their work.
