In this book, Ms. Toye has created 24 mandala designs which feature cats. The designs are provided not only in the standard circular format but also sized to fit a 5 x 7 inch card as well. The latter designs are elongated and sized down giving them a unique look and also a unique feel as I am coloring them.The designs are detailed but not intricate. I am using my standard coloring medium to finish the designs and I have found that in

addition to my colored pencils, my alcohol-markers in the ultra-fine point or markers with brush nibs work well for the elements of the designs. Ms. Toye has included some hints about color placement at the front of the book. There are also thumbnails of each of the 24 designs as well. This is what I found while coloring in this book and testing it with my coloring mediums. In the comments section below, I will list the coloring medium I use for both testing and coloring most of my projects. 24 x 2 Cat Mandala Designs each design is provided in full page format as well as sized for 5 x 7 inch use. Printed on one side of the page. Paper is thin, white, slightly rough and non-perforated. It is the paper which is typical for CreateSpace publications. Glue bound. Designs do not merge into the binding area and there is plenty of room to cut designs out if you choose to do so. Book opens fairly flat for coloring by creasing the spine. Alcohol-based markers bleed through this paper rapidly. Water-based markers bleed through in spots. Gel pens and India ink pens leave shadows on the back of the page; however, India ink can bleed through if you use multiple layers of ink. Both oil and wax-based colored pencils work well with this paper. I was able to layer the same color to get a deep pigment, layer multiple colors and blend easily using a pencil style blender. Hard lead pencils leave dents through the back of the page. I use a blotter page under my working page to keep ink and dents from damaging the pages below. I prefer card stock but using a couple of sheets of heavyweight paper works well, too. I was provided my first copy of this coloring book free for test and review purposes. I have since purchased additional copies for family and friends. 2 of 2 people found the following review helpful. Nice book, few quirks... but CATS... By ~Shawn~ I'm giving this book 5 stars. I have talked with the Artist a bit on the Facebook front, and she's a wicked nice woman, and her love of cats meets my own! I've wanted her other book for some time, but when I saw this one, I really needed to have it. I'm not a mandala fan, but something about this one, had me. I received my book and was looking at it. I was thinking that the printers messed up, because like some artists, they do 2 of the images each, and this has a full size one, and a smaller one. I then realized, that JoToye did a full size and a 5x7. Honestly, I'm not a fan of it. I would have rather had 2 full size pictures, esp since the one I colored didn't turn out like I had hoped (for my liking after coloring). I have 5x7's of the pictures, that I will never use. Just seems like a waste to me. My thinking is if she wants to do a 5x7 she should do a separate book, make it like a travel book. Anyways... The paper quality seems good, I used Prismacolor Pencils with it, and Gamsol. I used a couple gel pens, but AFTER doing a few layers of pencil and other mediums. So there wasn't any issue there, and even with the mistake I made it never ripped or bled through. I will do more from this book in the future. And I hope she does more books!! 2 of 2 people found the following review helpful. for my wife and she loved this one as well. By The Meanderthal's I recently purchased this book, along with the Cat-a-Doodles Whimsical Cats to Color and Love, for my wife and she loved this one as well! The designs are very different from the first book and are even more creative and fun to work with. She especially likes the duplicate images in different sizes and the greater degree of complexity of these designs. She has difficulty with her hands and the larger images make the coloring process much easier for her. We highly recommend this book and the previous publication to anyone who enjoys doodling when-ever and where-ever the urge strikes.
