There are many many DIY centerpiece books available with unrealistic expectations. The difference in this book is that someone who has never made a centerpiece before can actually make these beautiful centerpieces! And at reasonable costs with most in the \$15 to \$30 range each!! And possibly even lower if you enjoy shopping!!! This book

illustrates centerpieces with true step-by-step instructions including over 450 pictures. There are ideas from the very simple bud vase to the more elaborate set-up that you can enhance as much as you like! In addition tips are provided on planning your time, cleaning your flowers, table set-up, colors, themes, transporting your centerpieces and more!!! Most books stop at the making of the centerpieces and do not take into account all these other real life considerations. Getting ideas, planning tips and budget friendly help is vital. It is not only vital, it saves time, money and your energy. Many many tips are included that will help stretch your budget. Making your own centerpieces will save you half if not more the cost of what the florist would charge. It is work, but with dependable help and the right design, you can save several hundred dollars in your centerpieces alone. Being organized, planning and being prepared will result in having a centerpiece that will cost less, and have more value. One of the largest items in your budget will be the cost of flowers. Flowers can be expensive, but they are what make an event come to life. Flowers offer color, style, and they can reflect you. What is a wedding picture without the beauty of flowers? So the next question is how to have the flowers you want and save money at the same time.
