This is one of my favorite dollhouse booksBy isabel kenThis is one of my favorite dollhouse books; just the picture in the cover makes me love it--I want that kitchen! It is well-written and full of wonderful examples of antique dollhouses from all over the world. The book is full of things that inspire and amaze me.

This text presents some of the finest examples of doll's houses from Europe and America, showing a variety of traditions and national styles. The photographs illustrate a fascinating sequence of rooms, from attics to basements, and focus on the immaculate detailing of furnishings.
