Kimberly Einmo : Clever Combo Quilts before purchasing it in order to gauge whether or not it would be worth my time, and all praised Clever Combo Quilts:

0 of 0 people found the following review helpful. Five Stars By Shirley J Christian-McInerney I love Kimberly Einmo and her way of piecing. 0 of 0 people found the following review helpful. Five Stars By Dotcondition as advertised 9 of 9 people found the following review helpful. Stellar Layouts, Mostly Stars, and Mostly Beginner Level Beauties From This Clever Quilter By SLS It's the nice layouts that earn Clever Combo Quilts a full 5 stars. There is some block repetition in a few projects. Stars are in abundance, although some are clever AND sneaky. It's all good as Kimberly Einmo yet again builds fresh quilts from traditional roots. The combos can involve many different block designs and can appear quite unusual based on color and fabric choices. For example, Spring Cabin Fever (46x46) combines a single 9-patch within a single Ohio Star, 4 bear paws, 8 log cabins, and 4 Pine Tree blocks. Many photos show off the lovely quilting lines. Alternate colorways are suggested via the illustrations that accompany the instructions, which are

better organized than Einmo's previous jellyroll books. Many projects include an actual photo in a different colorway. 2 quilts each have 3 alternate photos: Star Chain (54x54) and Star Flight (48x48). But the best extra is that several quilts offer bonus optional layouts. Will you need any special rulers? Maybe. You might be able to make do, but ideally here's what you'd need to make every project in the book: 6x24 or 12.5 square ruler (try to get 1/8 markings for the future) EZ Flying Geese Ruler EZ Jelly Roll Ruler (definitely optional) Tri Tool (paper template provided, but acrylic tool is easier to use) Recs Tool (ditto) Einmo rates each quilt for skill level. Skilled Beginner Level predominates, with just a smattering of Intermediates. Sizes are mostly manageable for domestic machine quilting. Just 2 approach bigness. One is Windblown Stars (65x65) which combines Pinwheel (cleverly made from Flying Geese units) and Sawtooth Star blocks. It can easily be made smaller. The second big-ish quilt is the gorgeous Ginger and Tea Leaves (68x68). It combines Ginger Jar blocks with a Tea Leaf block, and flaunts a border fabric I have just got to find.

Combine and recreate with Kimberly Einmo's sixth book! Each quilt is constructed with two or more blocks to create a dynamic, secondary design. Traditional and specialty ruler methods are provided for fast, efficient cutting and construction. Choose any color combination by following Kimberly's value guide for each quilt. Use only half or whole size strips for Kimberly's signature method. There's no wasted fabric, no math, and no stress!

About the Author Kimberly Einmo is an author, designer, international quilting instructor, and quilt judge. She has appeared on television and radio programs and has written many articles and designed original patterns which have appeared in numerous publications. She loves to travel and has visited every corner of the United States and the world extensively to lecture and teach.
