And this book, it is a blast to look at and see all the stuff I remember. And all the tons of stuff I did not have a clue that was out there during that time. Coming from a small town, we missed out on lots of stuff.While others may not like the book, I personally love it myself. It just help me relive the good times in life. While they were not easy, they are alot easlier than they are today. These wee days when you could sllep with the windows open, walk down the street and not worry about getting shot. When kids got got outside and played with other kids from hours at a time. When people got together and hung out and enjoyed being with each other.So to me, it is a great book that I am glad I decided to buy. I do believe others who were around in the 70's will enjoy the book just as much.0 of 0 people found the following review helpful. Five StarsBy PenapetFun book full of memories of
