Johanna S. Billings, Sean Billings : Collectible Glass Rose Bowls: A History and Identification Guide before purchasing it in order to gage whether or not it would be worth my time, and all praised Collectible Glass Rose Bowls: A History and Identification Guide:

1 of 1 people found the following review helpful. The Definitive Book in the arena of Early American Art GlassBy Designs By AttilaThis book, beautifully written, is a gem also because of the hundreds (thousands) of color photos within. The authors do a magnificent job of sorting out the many dozens styles of rose bowls and punctuate their text with a treasure trove of striking photos. Clearly great care was taken in locating a wide range of rose bowls and assisting the reader in sorting out the recognizable difference between them.The authors had access to a number of world-class rose bowl collections and expand the field to include way beyond Early American Art Glass. The reader will come away with a heightened appreciation for this period in Art Glass history. Seeing that this book is now out of print, I secured two copies for my home library. The literature is vast in art glass but this book is the only work which

covers rose bowls so thoroughly.1 of 1 people found the following review helpful. Wonderful Rose Bowl Reference BookBy SkylarkExcellent reference guide, shows vivid detailed color pictures plus it describes pictures a few common reproductions. I was grateful to have found many bowls that I have in this book.0 of 0 people found the following review helpful. Five StarsBy Kimberly Jane PartainVery good information on rose bowls.

Organized by time periods, the book lists the primary bowl manufacturers along with the characteristics, folklore, and uses of their products.
