The only reason I took a star away, is because the paper started breaking down quickly, when I applied water. I used watercolor pencils. I've used these in regular coloring books with same amount of water without the paper peeling. I thought of trying these, because the water wrinkles normally paper. The first in a series of seasonal watercoloring books based on artist Kristys Rices cutting gardens, this book celebrates springs profuse blossoms such as peonies, magnolias, pansies, and Eastern bluestar. Her easy-to-learn, joy-driven approach includes simple tutorials on how to use watercolor and where to find affordable materials. A stationery-industry tastemaker, Kristy believes that making art, regardless of skill level, has the power to reconnect us to each other and ourselves. Touching brush to paper with water and color releases an inexplicable calm that so many of us long for, and making art, even in short bursts, brings us back to ourselves by slowing time. With 25 detailed, yet whimsical illustrations, artists are invited to continue the journey begun in her first watercoloring book series, Painterly Days.
