But it is encyclopedic and essential for Tiffany enthusiasts. 14 of 14 people found the following review helpful. --Found Treasure-- By Judith Miller I had the wonderful good fortune to find the LAMPS OF TIFFANY at a flea market and I'm delighted to say that I now own a copy of this beautiful book. There are almost 300 delightful photographs of the lamps made by Louis Comfort Tiffany in this book and 238 of them are in color. Each picture is accompanied by a detailed description of the lamp. There are also chapters devoted to Glass, Lamp Bases, Fixtures, Shades and information about the many other details in these lamps. LAMPS OF TIFFANY allows us to enjoy the beauty of these fantastic works of art while

learning something about the components of which they were made. Since most of us can't afford a true Tiffany lamp, I have to say that many of the gorgeous reproductions that are made today are a tribute to the artistry of Mr. Tiffany.
