Randy Wardell Judy Huffman : Lampworks before purchasing it in order to gauge whether or not it would be worth my time, and all praised Lampworks:

By A Customer I love this type of stained glass pattern book. All patterns are full size, which is important for 3D projects (enlarging with a photocopier causes distortions which prevents the pieces from fitting perfectly). You know how much glass to buy - it's all indicated. There are photographs of completed projects, for every project. It's fun to try to make an even better lamp than what they show in the book by buying fancier, even textured glass!
