From Atria Books : Living Art: Style Your Home with Flowers (Hardback) - Common before purchasing it in order to gage whether or not it would be worth my time, and all praised Living Art: Style Your Home with Flowers (Hardback) - Common:

7 of 7 people found the following review helpful. Flowers to view as an art pieceBy NickiThis has to be my most favourite book for floral design. I have spent hours upon hours buried in these pages of pure inspiration. It teaches you to see a 'space' through different eyes; nuances within a room or a piece of art on the wall. These become the pivoting point for your imagination to then create and arrange flowers to compliment a space.I love his 'recipes' at the back! Simple and to the point. If you enjoy designing flowers with a modern sculptural slant then this is really wonderful.Enjoy.Nicki Barratt7 of 7 people found the following review helpful. a perfect holiday giftBy Micky BouludLiving Art is a perfect gift for friends and family who have a discerning eye for beauty. The color photography reveals the most stunning floral arrangements set in some of NYC's favorite landmarks. Olivier urges the reader to find his/hers own style with tips and recipes. This book reminds us of the uplifting power flowers have on our moods, and how they can enhance our environment and relationships.7 of 7 people found the following review helpful. Living Art:Style Your Home with FlowersBy Jan BerryThis is an inspirational book and I feel a book to follow for floral design.I love the seasonal arrangemants and even though they look amazing they areachievable. I have copied some

and felt very chuffed with the outcomes.
