**From Frances Lincoln : London Underground Poster Diary 2014** before purchasing it in order to gage whether or not it would be worth my time, and all praised London Underground Poster Diary 2014:

London Underground is renowned for its poster archive and the Tube has become 'London's longest art gallery'. Historically these eye-catching posters enticed prospective travellers indirectly by focusing on the destination rather than the mode of travel and as the Underground expanded so did its potential destinations - from the inner city, through suburbia and beyond to the rolling countryside.
