I like to color abstract designs because I don't feel pressured to make it look 'real' (as you would a flower or animal). The designs range from somewhat complex to fairly simple. I like that many of them can be completed in an evening or few hours of coloring. Some of them are motifs centered on the page and some are square and fill the page. See my photos for examples.Features of the book:-Square format measuring 8.5 x 8.5".-50 designs are on the front of the page only--nothing on the back.-Bright white paper--the same as all the Createspace publications.-Pages are not perforated.-Designs are suitable for markers (some pages will require a fine tip), colored pencils, and gel pens.-Markers may bleed through, so use a blank page as a "color protector page".-Beautiful glossy front and back covers-Every page has a thin black line around the design, and the word 'Doodle Alley' under the square border.Overall, this book provides beautiful abstract themed pages, and should keep you busy coloring for many hours and evenings! I received a copy of this book in exchange for an unbiased review. My comments are based on my experience actually coloring in the book. The first page I colored using Caran D'ache colored pencils. I was able to complete that page in an evening

while watching TV, which is perfect for my attention span. 0 of 0 people found the following review helpful. ~~ Relax and let your mind take a break as you color these abstracts ~~By Richard and Liz Just want to relax and not think about anything in particular? Then this 50 page, single sided book of abstract images may be just what you need! Instead of doodling your own images, get out your pens, pencils etc. and start coloring one of these. SO many different ones to choose from in this wonderful selection of simpler art. Great for those who do not want to take a long time coloring the more detailed coloring books out there. If you have a spare hour or so you can sit down and complete one of these pages in one sitting. Images (7" x 7") are VERY clear with well defined lines. IMPORTANT to note that the pages are NOT perforated so the best way to cut one out if desired is to use a sharp craft knife or pen knife. Made in the USA. Happy coloring! Product provided in exchange for an honest review. Thanks, Liz
