Such a variety of pictures to color, whimsical, fun but not overly time consuming either. Cannot recommend her books enough! Each picture is on it's one page but I did put a paper underneath my art just incase of bleed through which was minor.0 of 0 people found the following review helpful. I love everything Doodle Art Alley publishesBy Macey BrownI love everything Doodle Art Alley publishes. This is a great book of various designs divided into sections such as geometric, animal, abstract, space, nature... I did not have any issues with the product or the company.1 of 1 people found the following review helpful. Fantastical!By twinbushAs with the other Doodle Art Alley Coloring book I've reviewed. (Doodle Art Valley Book Volume 1) I'm rather enchanted. But this one doesn't have a sayings theme like the other book. This is separated into rather distinctive sections.Abstract DesignsAnimal DesignsFlower DesignsGeometric DesignsHenna DesignsMandala DesignsNature DesignsandSpace DesignsHow can

you not love a book that is separated into so many wonderful sections? Like all of Doodle Art Alley Books, I still have a problem with the fact that they don't have a piece of card stock that you can use to protect the next drawing from your markers, so I've provided my own. I used markers, Sharpies, and highlighters. There is no right or wrong when it comes to coloring you know. And I've come to find out with Doodle Art Alley there is no wrong either. Way to go Samantha, another hit.
