0 of 0 people found the following review helpful. My Favorite Book....By Marianne PyshI cannot wait for another. Let me start by saying that I am a pretty avid fan of coloring. But, this book has been so much fun, I more than likely will color every single page. The paper is good quality, and each picture is very unique. It's a nice blend of scenes,

mandelas, and animals. The details are amazing without being overwhelming. I've used pencils, sharpies and gel pens on the pages. The pages are not scored, but remove easily. This book is worth every single penny, and I'll be first in line to buy another of Aemiliana's books.0 of 0 people found the following review helpful. I really love this bookBy Akaki KhukhashviliI really love this book, illustrations are detailed and beautiful. I enjoy coloring myself and with my kids, they really loved it, especially the animals and birds, they are pretty. I think you've got here all kind of designs from simple to intricate details, so anyone can definitely find the pages to color. I have noticed that illustrations are also very high-quality, some of them might take a time to finish but others are simple and could finish them in an hour or two. I am very satisfied with the quality of the designs, print and overall I recommend it to everyone who loves the coloring and enjoys it.0 of 0 people found the following review helpful. Love coloring this book, can't get enough...By CustomerJust started to color it and already anxious to get the next one. The illustrations are beautiful and the details are amazing. I used colored pencils and it looks fantastic, the paper is good quality, so I am planning to use markers as well. I love the fact that every design is unique and the skill level vary from easy to intricate. It defiantly worth every penny, and I highly recommend it. Waiting for the next book from Aemiliana.
