A Good Book With A Few CaveatsBy CustomerI found this book to be helpful in several ways: the author takes a consistent,recipe-like approach to bath bombs that is way overdue. Although I didn't use her recipes on my first try, I did use her technique, which left me with an round, rock hard "bomb" on the very first attempt. Good for her- I think that the authors who recommend tossing in a few ingredients, and then "spraying with water or witch hazel until it's like wet sand" should be (gently) pelted with their own non functioning products.Now for my reservations- unless you own a heavy duty stand mixer, or are willing to go out and buy one, don't bother buying the book. The second is that some of the recipes call for exotic, expensive, or hard to find ingredients. Also some of the recipes are for very large quantities of product, not appropriate for the beginner (although I suppose they could be divided). I think a first attempt should be for 5 or 6 bombs, without all the melted butters to keep track of, till you really get the hang of it.Finally, (and maybe this is a minor point) she

recommends cold process soap as a topping for one of her bath bomb recipes. CP soap is a whole different animal. It deals in dangerous chemicals and takes a lot of care and practice. I think it's kind of silly to suggest cp soap for a first project as topping for a bath bomb cupcake. There are lots of easier and safer possibilities out there.² of 2 people found the following review helpful. They are beautiful to look at
By Nanette Glover
This book has a Lot of specialty and "exotic" recipes for the person who really wants to make bath bombs that stand out from all the rest. They are beautiful to look at...only downside is they require many ingredients that I dont have! Worth it to get them if you are serious about making luxury items.³ of 3 people found the following review helpful. ... there are so many "You Tube" videos (which are great too) out there

But I decided to purchase this book and its a great reference book and recipe book to have on hand. I also had a question about a ingredient and had messaged Holly Port and she was a great help!
