This is a wonderful collection of projects to sew - some to help you stay organised, and some just for fun! Make It, Take It features 16 fabulous projects in two categories - practical items for staying organized, and projects to sew just for fun. With expert advice and easy-to-follow instructions, these projects are perfect for making with friends and in classes.

One of quilting's greatest strengths as a hobby can also be a great weakness for those of us who love socialising; it can be, by its very nature, a very solitary pursuit. Quilting groups and retreats are more popular than ever, however, and this encouraging trend is often overlooked by many publications. We're hard pressed to recall more than three books we've recently reviewed that really cater for the social aspect of our craft. However, Make It, Take It addresses quilting with friends admirably, presenting sixteen projects designed to be useful for quilting get-togethers. From the oversize tote bag, to smaller but no less useful items such as the scissors holder and crafter's apron, there are enough non-quilt projects in here to keep things varied and interesting, and the quilts themselves are gorgeous, particularly Lynne Goldsworthy's 'Lone Star Circle Quilt'. The book's contributors stress how wonderful it is to quilt in like-minded company, and we thoroughly agree. A terrific book, well worth poring over with some friends and a cuppa! --Popular Patchwork, Bag Special Issue 2015
Krista Hennebury was so taken with her first quilting retreat - sewing, learning, relaxing, more sewing and eating food prepared by someone else - that she has been to over 50 of them and has now been running her own retreats for the last 10 years. Wonderful days away from family and work commitments are a great way to relax and really get some sewing done in an atmosphere of friendship and fun. The 16 projects in this book are planned with retreats in mind, either for work to do while there or for things to take and use. An equipment tote, needle clutch, pillow, apron with pockets for equipment, thread catcher - from the entirely practical to full quilts, table runner and placemats - you'll find a use for them all. Krista assures us that her project-specific tips and tricks enable sewists (isn't that a better word than 'sewers'?) of any level will be able to make any of these lovely items. If you are thinking of a retreat, this book will provide all the inspiration you'll need. --Online Quilt Magazine, April 2015
