looking for a book with many. Second - I am still giving it 5 stars because despite the small size there is a lot of information in it. It does tell you the basic recipe/amount of ingredients for making hard lotions which allows you to choose the oils and butters you want to add. Then it gives you two (might be three) other recipes to use. The author explains how she got started in selling lotion bars and gives ideas on how to get started yourself along with prices etc. I actually use this book a lot more than I thought I would!

I had bought the supplies to make hard lotion years ago, but never tried as it seemed too hard. I was wrong. I bought the book, followed the super easy instructions, and I've been thrilled. Hard Lotion is super easy to make. The instructions tell you how to customize your bars, as well as how to sell them yourself. That I'm not going to do, but I will be making for my friends and family as gifts for birthdays and holidays. Who knew that this would really be so easy and fun. Because you can choose the oils, butters, and scents you can really customize the bars to your needs easily. The book also has pictures so you know you aren't doing anything wrong step by step. Love it! I only wish the book has been sold years ago. I guess you have to wait for the writer to write. I am very glad I bought the book, and I'm buying one for my daughter who lives too far away to borrow the book.

This book was a fun and easy read. I originally borrowed it from my local library and found it so useful that I purchased a copy on . I couldn't find it like I was hoping used so I had to purchase a new copy. The writer's style is very enjoyable. I am saving this book for when I start my own little hard lotion business. I think if you get this book in order to learn how to make hard lotion, you will be very pleased. It contains information on where to contact the author for a free sample of her lotion.

Have you always wanted to learn how to make your own hard lotion? This 56-page booklet will help you jump-start your new skill set with easy-to-follow instructions, various recipes, and an additional resource guide. Today's liquid commercial lotions have more toxic chemicals than we want to admit. Homemade liquid lotions have a shelf life of only a couple of weeks. Hard lotion is the solution for those interested in avoiding commercial products or lotions with short shelf lives and who want smooth, soft skin. Amberlee, the owner of the noted Amberlee's Apothecary and full-time chemist, and Caleb Warnock, the self-sufficiency expert, have teamed up to provide easy-to-make hard lotion solutions for your skin needs. With key health ingredients like coconut and avocado oils, hard lotions are simply the best solution to the skin you want. And, creating your lotion at home is fun and far less expensive than the commercial alternatives.
