**Dennis Simmons : Making Doll Furniture in Wood: 24 Projects and Plans Perfectly Sized for American Girl and Other 18" Dolls** before purchasing it in order to gage whether or not it would be worth my time, and all praised Making Doll Furniture in Wood: 24 Projects and Plans Perfectly Sized for American Girl and Other 18" Dolls:

0 of 0 people found the following review helpful. I love itBy barbaraj47great book2 of 2 people found the following review helpful. Nice ProjectsBy Man of La BookThe book is nice and the project are beautiful, but you do need several tools (scrolls saw, router table, router bits, chisels or a mortise jib, table saw and possibly a drill press)and knowledge how to use them as there are several different types of joints the author uses.As others said, I found the instructions a bit "off" especially for beginners who don't know how to "look" at a project but slowly work their way

step by step. I did have to make some adjustments due to the not-so-clear instructions. That being said, I learned a lot from my first project (the bed) and am looking forward to other projects. 6 of 6 people found the following review helpful. Making Doll Furniture By David B. Ryckman The pictures of the projects are beautiful but the instructions for making them are terrible. Simmons is not accurate in describing the steps and there are discrepancies in the diagrams. If you try to make a project, figure that you will have problems. I am appalled at the mistakes in the designs. Look ahead as you try to make a project and make the necessary alterations. I tried to email Simmons about one problem but got no reply. So much for customer concerns.

The patterns included in this woodworking project guide are sized for 18-inch dolls such as the popular American Girl dolls and can be scaled for larger or smaller dolls. Each project includes a list of all materials needed and details the start-to-finish procedure, from preparing wood to staining and painting the piece. Patterns for 30 pieces of doll furniture are included, and five step-by-step projects for a bed, dresser, rocking chair, table, and standing mirror are featured.

About the Author Dennis Simmons is a professional woodworker and a contributor to Scroll Saw Workshop magazine. He lives in Clarinda, Iowa.
