**Sybill Adolphi : Making Flower Children** before purchasing it in order to gage whether or not it would be worth my time, and all praised Making Flower Children:

Making Flower Children offers detailed, step-by-step instructions and illustrations for making a range of lively and creative flower figures. Many are recognizable from Elsa Beskow's popular picture books, and from Sybill von Olfers's Story of the Root Children. Activities are organized by season, making the book ideal for decorating a nature corner or seasonal table in the home or classroom.
