Stefan Steigerwald , Peter Fronteddu : Making Full Tang Knives For Beginners: Step-by-Step Manual from Design to the Finished Knife before purchasing it in order to gage whether or not it would be worth my time, and all praised Making Full Tang Knives For Beginners: Step-by-Step Manual from Design to the Finished Knife:

1 of 1 people found the following review helpful. Not for the beginnerBy E. C. MasonInformation given is misleading. Procedures discribed like they take a 1/2 hour when if done by hand will take several days. Like putting a bevel on a piece of tool steel flat bar with a hand file will take days.3 of 3 people found the following review helpful. Great book, first time knife makers are walked through ...By Duane FaulknerGreat book, first time knife makers are walked through the entire process, must have for new knife makers...1 of 1 people found the following review helpful. Very basic.By flhti harleyNot much more that very basic. Not a good value considering the price and what information the book gives you. But it is a high quality printing,I guess that's what your paying for.

From drawing the initial sketches of a design to etching your initials into the handle, Steigerwald and Fronteddu expertly demonstrate how to build a fixed-blade, full tang knife with detailed, step-by-step instructions and illustrations. These widely used knives are robust implements and are relatively easy to create, making this form an ideal choice for the beginning knife maker. No previous knifemaking knowledge is necessary, and the list of required tools is short: files, sandpaper, a drill, and elbow grease. All knives shown are variants of the same basic construction, but you will find many different styles of bolsters and handles, as well as advice on selecting the right steel according to the demands of a particular blades components. Having a small, handy knife at your side, designed and made by your own hands, will surely bring you more satisfaction than a store-bought, mass-produced pocket knife.

About the AuthorStefan Steigerwald is one of Germany's best-known knifemakers. Ernst G. Siebeneicher-Hellwig is an instructor at the Bavarian State Hunting School.
