Marion Thielmann, Beate Franz : Making Lovable Teddy Bears Their Clothes before purchasing it in order to gage whether or not it would be worth my time, and all praised Making Lovable Teddy Bears Their Clothes:

2 of 3 people found the following review helpful. Making your own Teddy Bears and clothes By L. M. I am very new to bear making and am not an experienced sewer. I haven't actually tried making a bear or the clothes but the directions seem clear and have step by step photos. There are a tools and materials list with details on each material. The bears and clothes are great and are good sizes. (10 inches to 24 inches and sizes inbetween.) I recommend this book for beginners and experienced. 0 of 0 people found the following review helpful. Five Stars By Customer Adorable bears and clothes with easy to follow instructions. 0 of 0 people found the following review helpful. Five Stars By Biney Love this book!

Could anything be cuddlier than a teddy bear? Now, making a special, personal teddy bear with its own

wardrobecouldnt be simpler. Just follow these basic instructions, and the advice on easily available materials. Includes detailed patterns and full color photos that show you the fabulous completed bears. With patterns for making a stunning wardrobe of, er, grizzly fashions. Publishers Weekly.

.com Forget the Furby fad. Teddy bears are timeless: they never go out of style, they're cuddly, and each one has a distinct personality, even if it doesn't talk. Best of all, they're not all that difficult to make. Here are full instructions and complete patterns for making more than a dozen irresistible bears and their wardrobes, plus good background on the basics of teddy bear construction and assembly. And if you really need one that makes its own noise, there are even directions for inserting a voice box or music box. --Amy Handy
