I used to book to make several Christmas Ornaments for our house and family. The author guides the reader through the step by step process to make each ornament. A great book for the beginner in Gourd Art work.0 of 0 people found the following review helpful. Great Idea BookBy M. B. ConnollyAngela has given us another great book that not only provides numerous ideas but also inspires one to develop their own projects. The illustrations are superb and no detail of the construction is omitted. This book is perfect for a beginner and an experienced "gourdhead" as well.0 of 0 people found the following review helpful. Gourd Ornaments ReviewBy decartI was very disappointed in this book. The craft/artwork is very crude and amateurish. I would not recommend this book unless you are teaching small children.

Learn techniques for making holiday ornaments out of fruit gourds. Make a Santa head from a banana gourd, a snow couple from mini-bottleneck gourds, and shiny ornaments from egg gourds. Eight projects show how to make your holiday gourd come alive with a little paint, beads, ribbon, a rubber stamp, and other handy household items. With 203 color images and step-by-step directions, both the beginner and advanced gourd artist will have fun decorating this holiday season. Features a gallery of completed projects that will inspire new innovations of your own.
