True, it is nicely produced, with good illustrations and instructions. Margo has a real talent for combining different textures and colours to make her projects.The book is a felting equivalent to a book of knitting patterns, and if you don't want to make the projects, then the book has only a few tips to help you make your own designs. If you look on the front and back cover, that is mainly what you will find in the book.An easy way to have improved the book would have been to include different variations of colour of the same projects, or the same

felting ideas used on different sizes or different objects. Personally I am not about to make needle felted tea cosies, or lampshades, as shown here.0 of 0 people found the following review helpful. but great starting placeBy TerriMargo Duke~~~~~ such a talented artist and able to share her techniques. I do wish there more instructions on some of the other flowers, but great starting place!2 of 2 people found the following review helpful. Making More Needle-Felting MagicBy Terry CollinsIt was great and very informative. I learned a lot from this great book. It is great for anyone wanting to take their needle felting to a higher level.

Fiber artists everywhere loved Margo's first book, Needle-Felting Magic, and now she's outdone herself with even more techniques. Take your skills to the next level as you combine machine needle felting, free-motion quilting, and wet-felting techniques. Margo's step-by-step directions allow you to master the fundamentals easily, even if you're a beginner.Choose from eight color-drenched projects, including a wrap, lampshade cover, tea cozy, bag, pillow, and more. A special section on the language of flowers is sure to make your own creative ideas blossom!

About the AuthorMargo Duke is known affectionately in fiber-art circles as "Her Majesty Margo," which is also the name of her company. Margo designs machine-needle-felting projects and believes that spending daily time with one's Bliss is an absolute essential to a healthy and well-balanced life.
