Patricia Hughes : Making Soft-bodied Dough Characters before purchasing it in order to gage whether or not it would be worth my time, and all praised Making Soft-bodied Dough Characters:

0 of 0 people found the following review helpful. Darling book!By L. M. MACLEANWhat a great book--the pictures are clear to show you what you're doing, the book contains both animals and people, and the designs are sweet. I can't wait to start. These figures I thought would be smaller, but all are six inches high. Although the book warns that these are decorations and not toys due to small parts (such as beads for noses and eyes) I would like to try making some dollhouse dolls for an older child.3 of 3 people found the following review helpful. Wonderful!By EileenPatricia Hughes' book, Making Soft Bodied Dough Characters, presents easy to follow instructions for making wonderful little dolls out of salt dough. In no time at all, I made the mother teddy bear and she turned out beautifully! My children were delighted. The step by step directions leave nothing to chance - anyone can create these interesting, colorful

characters. I can't wait to get started on the pirate, the fisherman, and the other delightful dolls so beautifully depicted in the photographs. The only materials you need to get started are flour, salt, water and some fabric scraps. The dolls would make lovely gifts for children or adults.

Flour, salt, and water: it's amazing such commonplace materials can make such incredible, wonderful things! With this exciting new angle on the popular and easy-to-master craft of molding dough, the possibilities are endless: a smiling, bright-eyed clown; a pirate pig with an eye patch and bandanna; a frog fly fisherman; a bride and groom; and a mother bear with 5 little cubs in 5 little pockets. Simply attach the individually formed dough heads and limbs to a "soft body"--you can even mix them up imaginatively to construct your own unique characters. All the basics are here including a recipe for salt dough, basic techniques, sewing patterns for the clothes, and enticing color photographs of the finished projects.
