Don't get me wrong wish I were 1/3 that clever with an airbrush. But to me it was a real waste of money.2 of 2 people found the following review helpful. Well worth the priceBy T. D. SerraI am more than pleased with this book I recently purchased. The examples from the pros are outstanding. Colors , techniques along with materials used are a wealth of important " How To "references for a part time artist. This has been a joy to use and a real time saver.7 of 12 people found the following review helpful.
