**Paul Grivell : The Sunlight Print Kit: Materials, Techniques, and Projects for Homemade Photography** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Sunlight Print Kit: Materials, Techniques, and Projects for Homemade Photography:

7 of 7 people found the following review helpful. great great productBy YashaThis is a wonderful product. It introduces kids to all the main principles of wet photography without the need for camera, darkroom or chemicals. It is also fascinating to observe the image appear in front of your eyes. The booklet is very informative and the templates for contact printing look nice. The kit offers an infinite number of creative projects one can do, and the resulting sunprints are permanent. I highly recommend it!14 of 14 people found the following review helpful. Good buy!By Photographer having Fun!This package made the process fun. The book was worth the extra money if you are interested in the history of this process and also it gives many ideas for other projects! I'm a professor so I liked this choice for those reasons. You can work without glass or plastic but a sheet of glass to press down objects like flowers is really good to have!3 of 3 people found the following review helpful. photosynthisis paperBy C. Mccarthythis is a great craft project for all ages. u just find things in the yard like leaves grass flowers and lay them on the paper and presto u have a angelic like photo...its blue and white.. the kids just loved it....thanks ild recomend this for anyone.

Sun prints, also known as cyanotypes, are some of the earliest forms of photography, and are exquisitely detailed images created using just three basic ingredients: light-sensitive paper, water, and sunlight. This kit provides everything you need to make versions of these masterpieces. Create impressions from found objects like leaves or coins, or use the included templates to make more fanciful images. Includes: - 80-page booklet - 10 sheets light-sensitive paper - 2 printed and 2 blank acetate sheets - Black felt-tip pen
