Moira Neal : The Weekend Crafter: Dough Craft: More than 50 Stylish Designs to Make and Decorate in a Weekend (The Weekend Crafter Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Weekend Crafter: Dough Craft: More than 50 Stylish Designs to Make and Decorate in a Weekend (The Weekend Crafter Series):

1 of 1 people found the following review helpful. Six starsBy Mrs. Iman Z. AliThis is absolutely my favorite book, I borrowed it enough times from the library that it my thumb prints all over it. I bought it finally and tried most of the ideas. So easy to follow, my daughter made a lot of things with me. The results are always perfect. I made things from it years ago and I still have all the items. I even made art presentation using its ideas.0 of 0 people found the following

review helpful. easy instructions and a challenge to try
By Jane P. Lot's of neat ideas, easy instructions and a challenge to try. Very happy with this book.
4 of 4 people found the following review helpful. Not pleased with the final outcome
By A Customer I purchased this book thinking I could master this beautiful craft. The book itself is fairly well written, with gorgeous pictures step-by-step. The downfall is that the author fails to tell you that the projects take a long time just to assemble, and during this time, the salt dough becomes dry and begins air-drying itself, becoming crusty, which later causes problems during baking. There was no solution for this. The baking itself is fairly simple, but it takes FOREVER! My gas bill went up a good amount during this time!!! I don't know about you, but I was never able to do one of these projects in the evening, because you have to bake it immediately and for as little as 3-4 hours and up!!! I found small projects taking 6 hours and up to bake, and ended up being all-day affairs. Larger projects require in the upwards of 18 hours to bake! If you can sit and watch your oven for that amount of time, then this is the craft for you. The author states you need lots of time and patience with this. I guess I thought I had a lot of time, but found it wasn't enough. A well written book, but a truly time-consuming craft.

The simple recipe for this activity calls for flour, salt, and common household items. The 50 projects from dough can be sculpted on Saturday, baked overnight, and painted and varnished on Sunday! Choose from a variety of fun and quick projects: a full range of miniature dollhouse furniture, holiday ornaments, even a star and angel mobile!
