Lots of cute patterns and ideas with clear ,easy to follow directions and colorful,inspiring pictures.I'd definitely recommend this book for anyone looking for ideas to utilize their stash of charm packs which we quilters all seem to accumulate!0 of 0 people found the following review helpful. Simple but CharmingBy Kindle CustomerThe quilts are all shown in mini size which is quite popular for swaps, gifts, and trying out new techniques. I like the designs in the book although there were only a few that I will actually make. Few of the designs caught my eye so to speak. Although, the designs make good use of all those charm squares you have collected. I think 4 stars is an adequate rating.0 of 0 people found the following review helpful.
