28 of 31 people found the following review helpful. its not what you thinkBy A CustomerThis book isn't about tie dying, but dying everything else. This is not a good book to buy if your trying to tie dye. It is, however a good book if your trying to dye other things such as wood, lampshades, paper, ect.

An exciting, thoroughly modern approach to creating inexpensive and stylish interiors with dye, To Dye For brings cold-water dye into the '90s. Thirty step-by-step projects offer chic, clever ideas for using dye to stain wooden floorboards, create a tie-dyed throw, match kitchen colors with dyed raffia placemats, design bold lamp shades, and much more. 190 color illustrations.

About the AuthorJuliet Bawden is the author of many sewing and craft books. She lives in London, where she operates a successful interior decoration business.
