By Marci Kladnik
I purchased two copies last year to give as Christmas gifts to my daughter's. When they were young, their own memory books were lost during a break in and with them so many "firsts" along with them. A Mother's Memory Book was the perfect replacement as this time I could include quotes from their grandmother as well before she passes away. My oldest called me in tears when she opened hers, so I know how much it meant to her. The illustrations are gorgeous and the text leads you through your own life and memories as you fill in the blanks. A true labor of love for all!

By K. Moore
I got this book for my daughter, and I think its fabulous! The questions it asks me to fill in are informative and creative, I just wish there was more to it. Seems to focus more on my mother, and her life, then me and mine, and even less about my daughters. But still so much more clear and helpful to fill in then most baby books, and certainly more helpful then just trying to write it all down in a journal or letter. Seriously I love this book!
