She said it was the best gift she had received in her entire life! I changed a few things and added photos to personalize it just for her.This book will be for an older daughter for her 50th birthday in July. I will do the same...add stories about her growing up and also add photos.When I'm finished I will start the ones I have for my other two daughters.I've seen other versions of this type of book but this one works best for my family.The first one I bought has a different cover..I like that better because of the simplicity. This cover is perfect for my oldest daughter but doesn't really fit my other girls so I will do something to personalize it.1 of 1 people found the following review helpful. enjoyed writing to my daughter about her life and mine. I was able to give this book to her on her wedding day. She cherishes it and enjoys showing it to her daughters, now! 0 of 0 people found the following review helpful. great gift

wonderful book. Gave one to my daughter (I filled most of it out) . She loves and treasures that book. Recently gave one to a long time friend whom I want her to fill out to pass to her daughter. I think her daughter will cherish it.

From the Author
I wanted to create a mother-to-daughter journal for every age. It's a kind of diary I will keep for my daughter when she has a baby; a book I hope my mother will one day present to me.
