This publication is an excellent reference book for the beginner heirloom seamstress.By JTWThis publication is an excellent reference book for the beginner heirloom seamstress. It is well written and the photos and illustrations are excellent. Having it makes me want to stop "doing" and get down to making heirloom items. The vendor who sent it to me did a fine job. The book is in excellent condition.JTW

Presents a range of projects for making heirloom items such as christening gowns and bed linen. The projects feature an array of trims, lace and fabrics, and particular techniques are clearly explained and illustrated.
