Casey Beard, Dale Degabriele : Tools of the Cowboy Trade: Today's Crafters of Saddles, Bits, Spurs, and Trappings before purchasing it in order to gauge whether or not it would be worth my time, and all praised Tools of the Cowboy Trade: Today's Crafters of Saddles, Bits, Spurs, and Trappings:

0 of 0 people found the following review helpful. Great photography By Janet M Mackie Very informative text about saddles and saddle makers combined with and great images. It is an essential resource for the collector and hobbyist. 15 of 16 people found the following review helpful. Great review of recent western saddlery and metal arts By Dave Duffus This is a very fine book. The text is interesting, well written, and, for a change, not apologetic about the west. The descriptions of the saddlemakers and smiths, and the history of their rise in the craft is really worthwhile. The photographs are superb. They provide an opportunity to really look over the work, you can almost run your fingers over the leather or silver. If you don't often get to those places like Pendleton, Elko, or Calgary you will really appreciate the chance to see this work, and if you are like me, an amateur leather crafter, these saddlers represent the

zenith of the craft. At the price you cannot really afford not to have this volume. One note to the authors....more please

This fine book, printed on quality gloss paper, not only relates what tack a cowboy/girl may use but who makes it today.
