Sonal Bhatt : Totally Beads (Beadwork Books) before purchasing it in order to gage whether or not it would be worth my time, and all praised Totally Beads (Beadwork Books):

6 of 6 people found the following review helpful. Clear, concise and fun! A great gift too!By A CustomerI have the hardest time figuring out what gifts to get people and this book was perfect for a recent round of gift giving. Everyone loved it and since beading is so popular right now it was just the right gift for those who are just beginning. The patterns in the book are great and give a ton of ideas. A great job was done on the illustrations making the actual beading process quite simple. I've actually seen a few of the designs in the book in some shops and was suprised to see how easy it is to make them. I would love to see a second book from this author with more designs and patterns.4 of 4 people found the following review helpful. Great for Beginners!By StarGymnastThis is a wonderful book for anyone to learn basics about beadwork. The book features many patterns and designs for necklaces, bracelets and anklets, and hair ornaments. These designs are easy to make and follow, and each step is clearly illustrated and has easy-to-follow, step-by-step instructions. Different desings in here includes squares bracelet, flowers and leaves necklace, flowers out of line necklace, circles bracelet, hanging wire star bobby pins, and much more. This book is perfect for beginning

beaders who want an instructional book to follow as they progress. 2 of 2 people found the following review helpful.
life changing
By Rainer Maria Marquez
My kids were making some bad decisions, and seemed to be headed down a bad path. I got them this book, and it totally turned them around. Now they make beaded objects for the whole community. They're a handful, but I love my kids. They really are good kids.

[For] the young at heart...37 items to craft concentrate on hair ornaments and necklaces, bracelets, and anklets; most are fairly simple to fashion...the book is frontloaded with the how-tos, a good basic explanation of threads, needles, clasps catches, knots, and other challenges a novice beader just might encounter....Totally for young people from styles to execution.
Booklist. A how-to delight for any budding bead enthusiast.
Shuttle, Spindle Dyepot.

From Booklist
In her first book, Bhatt gears her comments and directions to the young at heart. Her 37 items to craft concentrate on hair ornaments and necklaces, bracelets, and anklets; most are fairly simple to fashion, since few emulate specific recognizable objects. Each pattern features a materials list and step-by-step instructions as well as illustrations for most of the processes. A "try this" box of text indicates possible variables--new colors, new sizes, and new shapes. And the book is frontloaded with the how-tos, a good basic explanation of threads, needles, clasps-catches, knots, and other challenges a novice beader just might encounter (for instance, what if my threads run out in the middle?).
