has been a big hit with my primary aged students. The kids age from 5-13 and have made most of the work in this  
book. The students were very drawn to the sausage cooker and the potato cooker/BBQ. The parents rolled their eyes as  
if it would be a challenge to cook in the finished bbqs( as they are small). The planter was very successful and the cave  
popular. Their are a few non fired projects which I like as there are times when students come for one lesson and want  
to make and take.A lot of the projects use few tools, skills are very simple and as I am tertiary trained it was good to  
get back to simple no tools way that kids like to work. Get your hand in and pull the clay out!0 of 0 people found the
