**Jenny Housego : Tribal rugs: An introduction to the weaving of the tribes of Iran** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Tribal rugs: An introduction to the weaving of the tribes of Iran:

0 of 1 people found the following review helpful. Very Informative  
By hollyberry I bought this book to get information about a tribal rug supposedly from Iran that I bought from a dealer many years ago. I'm working my way through it and it's very well researched, explaining the history about how the tribes moved around. This comment is mostly to address the other reviews as to the pictures. Of the plates / photos showing rugs or other woven materials (like saddlebags), there are just over 100 in black and white, and 27 in color. Of course it would be great if they ALL were color, but then the book would have cost far more (and perhaps would have been too expensive to print). I'm glad I bought this book because I've learned about the people who made my rug. It was published in 1996 so before you could Google images on (for example) Shavasan rug.

Small Tribal Book  
By The Purple Bee I'm glad I purchase this book for my collection. It is informative handy. The photos of the rugs are good. Reasonably price.  
2 of 2 people found the following review helpful. Valuable ethnographic and pictorial info  
By Dana C. Smith This reference is a must-have addition to any collector's library. Author studied and lived among the tribes from which her beautiful rugs were woven. Illustrations are gorgeous! Tribal life is well-illustrated as well. Other contemporary authors of oriental rug books highly recommend this book!

This book is regarded as the most authoritative work on tribal rugs. It paints a fascinating picture not only showing

superb examples of tribal rugs, but also the way in which they are woven and the life of the tribes themselves.
