Eleanor Burns : Trip Around the World Quilt (From the Quilt in a Day Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised Trip Around the World Quilt (From the Quilt in a Day Series):

2 of 2 people found the following review helpful. It's a wonderful beginner to quiltingBy Arlene Mercill I have seen this book. It's a wonderful beginner to quilting. I purchased an extra copy for a gift. Paid for freight but this seller doesn't have it to me after more than a week. I won't need it by the time it may finally arrive. I thought ten days was plenty of time.2 of 2 people found the following review helpful. DisappointedBy AnonymousI usually love books by Eleanor Burns. This book has good information, but because it is so old, the way the information is presented is not as intuitive and easy to follow as newer books. It is mostly in black and white with diagrams and lacks the great color diagrams and pictures the newer books have. So, I was disappointed with the book, having bought it for my Mom to use. The information, such as measurements and technique, should be useful, but really prefer the way the newer books present

information for quilters.3 of 3 people found the following review helpful. Great quilt to begin your quilting adventure.By TrappinGrammaI have taught this quilting class before and was asked to teach some folks at church to quilt. You can't improve on the wheel so I went back to my standard quilt and book. I love Eleanor Burns techniques and writing. I was very happy to find 4 used copies in great condition on . I taught myself to quilt with this book and highly suggest it to others. You can actually finish a baby sized quilt easily in a day with these instructions. The bigger quilts I suggest you give yourself a little more time.

The Trip Around the World pattern is built of squares radiating from the center out to the borders. Eleanor shows how sewing and then "unsewing" fabric strips makes this a quick and easy project.
