**Various Contributors : Ultimate Celebration Cards** before purchasing it in order to gage whether or not it would be worth my time, and all praised Ultimate Celebration Cards:

4 of 4 people found the following review helpful. A MustBy Ronda M. MurdochThis book is so useful and really a must for card makers and scrapbookers alike. I create all my greeting cards for birthdays or any special occasion and this book not only inspired but put my creative mind to work as soon as I started reading through it. Images popped into my head as I turned the pages of cards to make and scrapbooking pages to create.I am so pleased to have bought this book.4 of 6 people found the following review helpful. The Worst Collection of Card DesignsBy Art DabblerSo dissappointed in this book. Other than one or two pictures this material is very old, dated and not at all exciting, which is very surprising for card designs from the UK. Guess I'll just donate the book as I won't use it.

The ultimate book in holiday cardmaking! Readers will be able to create stunning cards to celebrate special events throughout the year with this collection of over 200 beautiful cards from some of the top designers in the craft. Each section of the book features a selection of quick-to-make cards for each season, with full step-by-step instructions. A gallery of fast cards in seasonal colors provides further inspiration for readers. Novice papercrafters will enjoy learning new skills while experienced crafters will be inspired by the variety of techniques, including rubber stamping, embossing, die-cutting and quilling. With so many unique cards to choose from, every crafter will find this to be a valuable resource for every card occasion.
