Also has a disc to create even more. Wonderful "unplugged" activity.0 of 0 people found the following review helpful. Good in the Paper 'Hood!By skizzy6I bought this book knowing it was used. It was in great shape, the spine showed some use, but that was to be expected, especially for a soft-cover. I am really happy with this book, and that it was packaged well to keep it safe during shipping. I would definitely buy from here again!This is a pretty hard to find papercraft book. I was excited to find it here. I would definitely recommend this to anyone who would like to start their own army of creative paper monsters. Beware: it is highly addictive!0 of 0 people found the following review helpful. Cutting them out is too challengingBy Jason L

SharplesMy son adores paper toys! He must have made 50 of them in the last few months. These are really great designs but having to cut them out has proven to be one time-consuming and challenging step too many. Look for books that have perforated designs like Paper Toy Monsters!

Join the Papertoy Revolution!This is a collection of 26 of the coolest designer paper toys in existence, ready to be cut out and built. Each papertoy has step-by-step instructions, complete with easy-to-use diagrams, so even a novice will be able to make amazing papertoys with the help of a pair of scissors and a few dabs of glue. Interviews with contributors such as Shin Tanaka, Ben the Illustrator, NiceBunny, Cubotoy and Kenn Munk are included. You'll find out more about where their ideas came from#151and they might even inspire you to create your own papertoy! In addition, there is a foreword by Andy Heng from [www.toysrevel.net](http://www.toysrevel.net). The DVD includes lots of bonus features, such as all 26 toy templates in PDF format (so you can build cities full of papertoys); basic shapes (so you can learn the building blocks of papertoys); blank templates (so you can create your own "skin"); longer, unabridged interviews with all the designers in the book; and 33 bonus templates. So grab your scissors, your glue and your imagination, and get ready to enter an inspiring new world of papertoys!

About the AuthorMatt Hawkins is an incessant doodler. He lives in Kansas City with Alicia, Henry and Lily. By day, he works at a C3, a children's marketing agency as an illustrator/papertoy designer. By night he stays up way too late in his attic studio making designer papertoys for his own amusement and freelance papertoys for clients. He shares his papertoys with the world at [www.custompapertoys.com](http://www.custompapertoys.com). He's always cutting or folding or gluing something.
