**Lilo Markrich : Victorian Fancywork: Nineteenth-Century Needlepoint Patterns and Designs** before purchasing it in order to gage whether or not it would be worth my time, and all praised Victorian Fancywork: Nineteenth-Century Needlepoint Patterns and Designs:

0 of 0 people found the following review helpful. Nice add to collectionBy DonnachaidhSo excited to find this book. The scene on the front cover is darling. I checked this book out from an Atlanta public library in 1979. It took a few years to complete the front picture in cross-stitch. I gave the completed work to my mother as a gift in 1983 and mailed the book back to the library as we had relocated to another part of the country by then. I was just a kid and cannot remember if I mailed the overdue fine :) Just having the book now brings back some nice memories. Svetlana's review is spot on. There are a few charts included that will be helpful for reproduction but it's mostly an historical account. I remember using a magnifying glass along with a catalog of DMC floss to replicate the pattern on the front cover. Took a lot of patience especially for a teenager :)0 of 0 people found the following review helpful.

VICTORIAN FANCYWORK BY LILO MARKRICH AND HEINZ EDGAR KIEWEBy SUSAN GILLThis book is amazing lots of patterns to follow. Patterns old type victorian woolwork and beadwork in black and white but then shown in colour with the colour symbols. These are 19 century patterns and designs and shows the victorian women in their costumes and the embroideries that adorned the rooms. I would recommend this book so much to read this is a best buy at a good price as these patterns are hard to find. And this book is a must for anyone who likes the victorian

era. IT exceeded my expectations. 0 of 0 people found the following review helpful. a wonderful book for berlinwork lovers! By Svetlana Lengyel It's a good book for all those who like Victorian time and Berlinwork! It doesn't contain hundreds of patterns, but provides a good reading about the time and atmosphere of the period.

...is a first-rate collection of delightful patterns and designs from the period, focusing on the bright-colored embroidery known as Berlin work. The Patterns are reproductions of the elaborate hand-painted charts that were produced in Berlin during the 1840s and 1850s.
